Carbide Surgical Bur – Sterile

FAST CUTTING

Sectioning teeth into manageable components can be done quickly using SS White burs.

LESS CLOGGING

Bone removal and discharge of material is done efficiently due to SS White's unique blade geometry.

- New Non-porous smooth d-PTE material.
- Will not absorb blood, saliva, bacteria and food residue.
- d-PTE material is more flexible thereby adapts to tissue volume changes during healing.
- White thread and black needle ensures excellent visibility in the surgical field.
- Needles are manufactured from an exotic metal alloy; resulting in a hard, razor-sharp edge.
